

Student Testimonials

A health science career is more than just a “job” It is something that I look forward to and enjoy– Lizbeth G.

Health Science is the greatest opportunity that I have ever had! It’s so fun!- Kaday K.

Health Science is a great program that helps you figure out if the medical field is actually for you. The teachers are great and the experience as well!- Maryel R.

The Health Science Institute at Lanier has given me amazing opportunities to experience the field of Health Care– Patricia M.

The Health Science Institute is an amazing program that could prepare you for an awesome career!- Gwendoline S.

Students at Lanier are very fortunate to have this Health Science Institute on campus. It gives students the opportunity to experience the health science environment early instead of waiting for college.– Doris V.

It not only teaches you about health care, it also teaches you about honesty, responsibility, optimism, and character.– Bryan E.

Why choose a career path in health care?

Growing Industry

Many of the fastest growing occupations in America are in Health Care

Low Unemployment

Health Care professions have lower unemployment rates than most other professions in America

Make a Difference in People's Lives

Spend your career helping improve the lives of other people and making your community a better place to live

High Salary

Health Care professions are not only rewarding, but include some of the highest paid professions in the country

Benefits

Most health care professions offer health insurance, paid vacation, sick time, retirement plans along with other benefits

Courses Offered

Principles of Health Science

This course provides an overview of the therapeutic, diagnostic, health informatics, support services and biotechnology research and development systems of the health care industry.

Health Science

This course provides for the development of advanced knowledge and skills related to a wide variety of health careers and to develop health care specific knowledge and skills such as ethical and legal responsibilities, client care, safety, and first aid.

Practicum in Health Science

This course gives students practical application of previously studied knowledge and skills. Students will have the opportunity to develop skills and competencies through a clinical hospital experience.

Pharmacy Tech Practicum

Students will develop advanced clinical skills related to the pharmacy profession. Students will have the opportunity to develop skills and competencies through a clinical pharmacy experience at Walgreen's Pharmacies and become licensed Pharmacy Technicians.

Anatomy and Physiology

Learn the parts and functions of the human body and how body systems work together to maintain homeostasis. Dissect a variety of body parts! Vital knowledge for future M.D.'s!
